

[Document Name] ABSTRACT

[Abstract]

[Object] There are provided an adsorbent which can effectively adsorb and remove endogenous cannabinoid in fluid, and a process for removing endogenous cannabinoid in fluid by means of the adsorbent.

[Constitution] The adsorbent of endogenous cannabinoid comprising a water-insoluble material containing a substance whose solubility parameter δ is at most 12 $((\text{cal}/\text{cm}^3)^{1/2})$ is obtained. Endogenous cannabinoid in fluid can be effectively adsorbed and removed by contacting the adsorbent of endogenous cannabinoid with fluid containing endogenous cannabinoid.
